

RollSeal™ Ultima 35 Ezload EU

1701640

PRODUCT DESCRIPTION

Designed for Education yet as versatile in the office, the RollSeal Ultima 35 Ezload Roll Laminator guarantees high volume, economical results. It takes ultra slim (2x42.5 micron) to heavyweight (2x250 micron) film and Ezload technology means it always loads correctly. It is ready to use in a minute for laminating small items to banners and posters (up to 150m in length).

FEATURES

- Variable temperature: Enables lamination from 42.5 micron up to 250 micron thicknesses (Total 500 micron)
- Not restricted by conventional paper formats (DIN-size)
- 1 minute 'Warm up' period - Less wasted time
- Cooling fans for improved quality over continuous lamination
- Inbuilt Manual Film Cutter
- Paper Guide to align items to ensure that longer items are fed into the laminator straight
- Permits use of multiple paper media
- High Speed machine: 1000 mm/min
- Time to laminate 1 A4 sheet: 13 sec
- Time to laminate 1 A3 sheet: 18 sec
- Approx 4 x FASTER lamination process than with traditional office Pouch laminator
- EzLoad™ Film Loading Technology
- Impossible to load films in error
- Laminates all formats up to 305 mm width
