

Philips

Multimedia Speakers 2.1

- SPD™ bass port
- 3" Satellite driver
- 5.25" Subwoofer
- 130 W

SPA7380/05

Immersive bass

Takes gaming to a new level

Four sophisticated integrated circuits drive the subwoofer and two satellite speakers for quality sound while Philips SPD bass port technology delivers pure deep bass, and all with 60-W output for the explosive bass that gamers want.

Benefits

Impressive sound

- 60 W output power
- Advanced integrated circuits
- SPD™ innovative bass port technology for deep, rounded tones
- PP subwoofer driver material
- Side firing bass port speaker design
- Well damped driver reduces vibration and sound distortion

Contemporary design

Features

60 W output power

60 W output – wow! We gamers all want higher power because for gaming speakers the bigger the output, the better the bass and overall sound quality.

- Long tube design generates more bass
- Curvilinear cabinet for well-rounded sound

Simplicity

- AUX-in and headphone out on wired control
- Compatible with any media
- AUX-in for easy connection to almost any electronic device

So enjoy your next game with this powerful, big 60 W output, which gives you all the explosive bass you want.

PHILIPS

Extended tube design

All gamers want their speakers to have as much bass as possible, and these speakers are specially designed to deliver the bass you want. The long tube design of this satellite speaker gives better-quality sound with extended bass. This creates more volume to generate more bass and bring you more enjoyment from your games.

Advanced integrated circuits

The Philips integrated circuits in this speaker are very sophisticated. Normal speakers have between one and 3 channels, but this speaker comes with 4 channels to give you the better sound quality you need. Philips uses 4 integrated amplifier chips to drive the 2 channels of two satellite speakers and 2 channels of the subwoofer. These TDA7379 amplifier chips provide a good solid foundation for quality sound and all the power needed to drive the subwoofer and satellites.

SPD™ technology

Philips Sound Purification Duct (SPD) bass port technology delivers the deep, pure tones of the original bass sound. Using an SPD foam material to process the inner surface of the bass pipe, the special acoustic damping invented by Philips reduces noise turbulence and stabilises the tuning frequency. Philips technical and consumer tests confirm this buffer provides less coloured, purer quality bass.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Product dimensions

Width	22.5 cm
Height	22.5 cm
Depth	22.8 cm
Weight	3.19 kg

Audio systems

Frequency range	20 Hz-20 kHz
Input impedance	20 Kohm
Output power in total	60 W
Power	220 V 50 Hz
Signal/Noise ratio	>75 dB
THD	<1%

Audio systems L/R channels

Audio power amplifier	Class-AB Amplifier
Channel separation	>45 dB
Input sensitivity	600 mV
Rated output power	14 W x 2

Subwoofer audio systems

audio power amplifier	Class-AB Amplifier (BTL)
Input sensitivity	130 mV
Rated output power	32 W

PP subwoofer driver material

The polypropylene (PP) material in the driver, which is heavy, makes for better bass. It can help rolling out and produces more bass with better clarity and balance. Easier to integrate with the full range driver and results in less vibration.

AUX-in and headphone out

Now you can enjoy your favourite music and entertainment even easier and more conveniently via the aux-in and headphone out jack on wired control. Usually, if you want to connect another device other than your PC, you have to unplug the 3.5 mm jack from the computer and that is not always expedient. But with the aux-in and headphone out connections on front you can quickly and easily listen to music straight from almost any device.

Left/Right speakers

Driver power range	1-30 W x 2
Frequency range	80 Hz-18 kHz
Nominal impedance	4 ohm
Sensitivity	86 dB(2.83 V/1 m)
Speaker driver	3"

Subwoofer speaker

Driver power range	2-120 W
Frequency range	45 Hz-200 Hz
Nominal impedance	4 ohm
Sensitivity	88 dB (2.83 V/1 m)
Speaker driver	5.25"

Connectivity

Cable length	Power cord, audio cable, satellite cable: 1.3 M
Connector	3.5 mm stereo

Power

Power LED indicator	Green
---------------------	-------

Convenience

Remote control	volume control, headphone output, additional audio input, power indicator
----------------	---

Packaging content

3.5 mm stereo line cable	Yes
Number of satellites	2
Quick installation guide	Yes
Remote Control	Wired
Subwoofer	Yes

Packaging dimensions

Height	27.90 cm
Width	42.60 cm
Depth	30.70 cm
Net weight	4.08 kg
Gross weight	5.12 kg
EAN	08712581680503
Number of products included	1
Country of origin	CN
Harmonised Systems Code	851822

Outer Carton

Length	43.80 cm
--------	----------

Width	31.90 cm
Height	57.40 cm
Gross weight	11.20 kg
EAN	18712581680500
Number of consumer packages	2

Loading Unit

Number of consumer packages	32
Length	119.50 cm
Width	95.70 cm
Height	116.60 cm
Gross weight	180.80 kg
Net weight	130.40 kg
GTIN/EAN	48712581680501
Type	8831
Number of CTIs per stack layer	16
Number of stack layers per unit	2
Number of outer cartons per layer	8
