Highlights

2200 Watt motor

2200 W motor generates max. 500W suction power for excellent cleaning results.

Airflow Max technology

Airflow Max technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get the highest suction power, even as the bag fills-up!

5L dust capacity

The specially designed 5L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

TriActive+ nozzle

The TriActive+ nozzle applies 3 cleaning actions in one go: 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front. 3) It sweeps up the dust and dirt alongside furniture and walls with its two side brushes.

HEPA AirSeal with HEPA 13

HEPA 13 filter and AirSeal capture even the finest dust before the air is blown out for a dust-free environment and clean, allergen free air. The exhaust air is even cleaner than the air in the room.

ECARF certified

This vacuum cleaner with HEPA 13 filtration is certified as Allergy friendly by the European

Centre for Allergy Research Foundation. The HEPA 13 filter purifies the exhaust air up to 99,95% of allergens from; cat & dog hairs, dust mites or pollen to support an allergy friendly home environment.

s-bag Ultra Long Performance

The Philips s-bag Ultra Long Performance made of five layers of high quality, non-clogging material captures even the finest dust. This excellent filtration gives you a better cleaning result and clean air in your home. The multilayer filtration also maintains the vacuum cleaners high suction power during the entire lifetime of the bag. The s-bag ULP has been tested and certified by the independent test institute TÜV Rheinland Group, proven to last up to 80% longer than a standard dustbag.

Long reach

11 m reach allows you to clean a larger surface without having to switch the plug.
