

MPN: MPK419

CAT5e Network Cable Splitter (Y-adapter), White

The MPK419 Cable Splitter (Y-adapter) allows you to split a single Telephone connection into separate Telephone and Ethernet connections. This versatile adapter is perfect for situations where you need to share a single wall port or outlet between your phone and a network device. Ideal for home offices, temporary setups, or simplifying cable management, this Y-adapter provides a reliable and convenient solution. As with all MicroConnect products, this splitter is engineered to meet European quality standards, ensuring optimal signal transmission and durability. MicroConnect has been pioneering connectivity solutions for over 20 years, offering premium quality accessories like this cable splitter at fair prices.

- Material: Aluminium
