

Productivity with a Twist.
Ultra-thin convertible tablet in an innovative design

HP recommends Windows Vista® Business.

HP EliteBook 2730p Notebook PC

Starting at only 3.7 lb /1.7 kg and 1.11 in/28.2 mm thin, the HP EliteBook 2730p Notebook PC offers you the functionality of a notebook plus the flexibility of a tablet.

Redefining what you can do on the go

New low-voltage processors and 5400 RPM drives increase system performance in a lightweight package. Easily scroll through documents and web pages with the new jog dial and the enhanced dual pointing devices. The 2 MP Webcam ¹ with Business Card Reader software means you will never forget a name, e-mail or phone number. Use the HP 2700 Ultra-Slim Expansion Base with integrated DVD+/- RW drive as a docking station in the office or take it with you while on the go. Whether you're across the street or across the country, integrated HP Mobile Broadband ², Gobi technology, Wi-Fi CERTIFIED™ WLAN ³ and Bluetooth® help you stay connected in more places. You also get the flexibility to add HP Mobile Broadband at a later date.

Unique widescreen display and writing surface

Benefit from the mercury-free, 12.1-inch diagonal widescreen HP Illumi-Lite LED display which is lighter and more energy-efficient than standard CCFL display technology. Work better in bright light conditions with the optional outdoor view display. The chemically-strengthened glass top will not wear down with repetitive use and resists the effects of "pooling."

HP Professional Innovations help you focus on your business

Built to last. Enhanced reliability features including HP DuraKeys, HP 3D DriveGuard and full magnesium alloy chassis give you a durable device that has been tested and meets the military standard MIL-STD 810F for tests including dust, altitude and high temperature ⁴.

Built to simplify. Boost your productivity while maximizing ease of use. HP QuickLook 2 allows you to access email, calendar, task and contact information in seconds at the touch of a button from off without having to wait for your system to boot up ⁵.

Built to protect. An array of multi-layered, customizable security solutions help defend your network, your applications and your data.
