

Keep a close shave

Change heads every 2 years for best results

Every year, your blades travel the height of Mt. Everest ... 49 times! After such a workout, even the best materials can lose their edge. Retain your shaver's peak performance - Replace the heads once every 2 years.

Comfortably close

- Super Lift & Cut shaving technology with dual blade system

Shaves even the shortest stubble

- Precision Cutting System

A fast and close shave

- Triple-Track shaving heads with 50% more shaving surface

Perfectly close, even on the neck

- Flex & Pivot Action follows every curve

Highlights

Super Lift & Cut technology

Dual blade system of your Philips shaver: first blade lifts, second blade cuts for a comfortable close shave.

Precision Cutting System

The Philips shaver has ultra thin heads with slots to shave long hairs and holes to shave the shortest stubble.

Triple-Track shaving heads

The three shaving tracks of the Triple-Track shaving heads offer 50% more shaving surface than standard, single track rotary shaving heads.

Flex & Pivot Action

Three independently flexing heads in a shaving unit that swivels with a full range of motion. This unique combination ensures optimum skin contact in curved areas to catch even the most problematic neck hair.
