- Kevlar-reinforced cable for ultimate durability

[Excellent sound with added bass boost](#)

- 40mm neodymium drivers for mega bass and fueled performance
- Open acoustic design keeps you alert to your surroundings

PHILIPS

Features

40mm neodymium drivers

Get into your groove with music that packs a solid punch, thanks to powerful 40mm neodymium drivers that pump out mega deep and dynamic bass. Your ActionFit headphones are designed to fuel your workout performance – no matter how demanding. Experience a vividly moving sound experience, whatever your workout and wherever you go.

Detachable & washable cushions

Go ahead and sweat it out – your ActionFit SHQ5200 headphone feature unique ear cushions that are covered by a moisture wicking fabric that keeps you comfortable, cool and dry throughout your workout. Just detach the cushions for a wash after several uses and they'll be as good as new.

Non-slip headband

The ActionFit SHQ5200 headphones feature a specially designed headband that fits securely throughout your toughest workout. Its non-slip headband is built with an innovative silicon grip that ensure sufficient contact points on your head, preventing any side-slips or front-back pendulum effects while you move freely during your workout.

Open acoustic design

For your safety, your ActionFit headphones allow you to be aware of your environment – especially when exercising outdoors. Its open acoustic platform lets you discern what is happening around you while still enjoying your music fully.

Snug-fit headband

Your ActionFit headphone features a discreetly designed snug-fit headband with ergonomic ear cups that are stringently tested to fit all ears – no matter what shape and size – comfortably and perfectly.

Ultra light 99gm

Weighing in at a lean 99gms, the ActionFit SHQ5200 is one of the lightest headphones on the market. Its efficiently engineered architecture features individual parts that are specifically designed to achieve a precise balance of ergonomic structure and comfortable weight. The headband frame is made of high-grade polypropylene, ensuring a consistently firm grip and discreetly stylish fit.

Kevlar-reinforced cable

Your ActionFit headphones are specially designed for durability and strength. Its Kevlar-coated cable is well protected against tearing and breaking, and can withstand extreme environments – and workouts.
