S1/00

Highlights

13.5mm neodymium drivers

Each speaker driver is carefully hand picked, tuned and tested before being paired to ensure delivery of the most balanced, natural sound. The 13.5mm drivers utilize high power neodymium magnets to deliver deep bass impact, transparent mid-range and refined high frequencies.

Engineered metal housing

The metal housing is meticulously engineered to reduce resonance and vibration, delivering authentically precise sound marked by incredible sound detail.

Handpicked, tuned and tested

Each speaker driver is specially tested and hand picked as ideal stereo pairs, together delivering

superbly deep bass, transparent mid-range and refined high frequencies.

Semi-closed back design

The semi-closed back architecture combined with large, premium-quality drivers, ensure greater bass extension, while the design itself is optimized to minimize sound leakage. Front pressure equalization channels allow for more detailed and balanced sound, which reduces the occlusion effect for a more natural listening experience.

3 sizes of soft silicone tips

The Fidelio S1 in-ear headphones come with 3 pairs of acoustically sealed silicone tips to ensure a snug fit as well as longer wearing comfort.

Comply™ Foam Tips

Enhance your listening experience with the bypacked Comply™ Foam Tips. The tips provide stay-in-place fit coupled with amazing all-day comfort, while providing noise insulation, allowing you to tune out from the world and into your music.

Elasticized ring

Elasticized ring for in-ear stability and super secure fit

Ergonomic earphones

The Fidelio S1 earphones are ergonomically shaped to fit your ear's natural curve, all the while dispersing pressure. Its lightweight aluminum construction and superior materials ensure long-lasting comfort, allowing you to experience true comfort as you enjoy your music to the fullest.

Lightweight aluminum housing

Lightweight aluminum housing with refined brushed finish

In-line control and mic

The Fidelio S1 in-ear headphones feature an in-line remote and microphone so you can switch easily between your music and calls. Stay connected with important people – and your music, always.
