

Philips Fidelio
Headphones with mic

High-resolution audio

In-ear
Ultra-soft silicone caps
Flat cable

S1

High fidelity, premium quality

Wherever you go

Philips Fidelio S1 headphones are precisely engineered to deliver natural, balanced sound, revealing every detail as the artist intended. Amazing sound presented in a lightweight yet durable design for true comfort and pleasure on the go.

Designed for precision

- High-resolution audio reproduces music in its purest form
- High-powered 13.5-mm neodymium drivers for exceptional sound
- Engineered metal housing reduces vibration and resonance
- Handpicked, tuned and tested drivers for a precise match
- Semi-closed back design for sound balance and bass extension

Listen in comfort

- Ultra-soft silicone tips in 3 sizes for a custom, snug fit
- Comply™ Foam Tips for superb custom fit and noise isolation
- Elasticised ring for in-ear stability and super-secure fit
- Ergonomic earphones fit perfectly while dispersing pressure
- Lightweight aluminium housing with refined brushed finish

Created for convenience

- Switch between music and calls with in-line control and mic
- Protective pouch to store your headphones when not in use

S1/00

Highlights

13.5-mm neodymium drivers

Each speaker driver is carefully handpicked, tuned and tested before being paired to ensure delivery of the most balanced, natural sound. The 13.5-mm drivers utilise high-power neodymium magnets to deliver deep bass impact, transparent mid-range and refined high frequencies.

Semi-closed back design

The semi-closed back architecture, combined with large, premium-quality drivers, ensures greater bass extension, while the design itself is optimised to minimise sound leakage. Front pressure equalisation channels allow for more detailed and balanced sound, which reduces the occlusion effect for a more natural listening experience.

Handpicked, tuned and tested

Each speaker driver is specially tested and handpicked for ideal stereo pairs, together delivering superbly deep bass, transparent mid-range and refined high frequencies.

Engineered metal housing

The metal housing is meticulously engineered to reduce resonance and vibration, delivering authentically precise sound marked by incredible sound detail.

Elasticised ring

Elasticised ring for in-ear stability and super-secure fit

Ergonomic earphones

The Fidelio S1 earphones are ergonomically shaped to fit your ear's natural curve, all the while dispersing pressure. Their lightweight aluminium construction and superior materials ensure long-lasting comfort, allowing you to experience true comfort as you enjoy your music to the fullest.

Lightweight aluminium housing

Lightweight aluminium housing with refined brushed finish

In-line control and mic

The Fidelio S1 in-ear headphones feature an in-line remote and microphone so you can switch easily between your music and calls. Stay connected with important people – and your music, always.

Soft and durable flat cable

Every aspect of your Fidelio in-ear headphones is carefully designed for an exceptional music enjoyment experience – always. Their innovative dual-colour flat cable – made from high-quality, durable yet stylish material – has anti-tangle properties, allowing you to freely get into your music on the go, without spending any time and energy sorting out the cable. Smart, smooth and easy all the way.
