

Original radio mini

- Bluetooth®
- DAB+, FM
- Dual alarm, Kitchen timer
- 4 W

ORT2300C/10

Control your Original radio mini wirelessly

with free DigitalRadio app

Get smooth grooves with this Original radio mini. A modern interpretation of the iconic Philetta delivering DAB+ and FM radio, as well as music from smart devices wirelessly via Bluetooth. A built-in kitchen timer adds a touch of convenience.

Benefits

High-fidelity radio experience

- Bluetooth music streaming from your smartphones or tablet
- DAB+ and FM compatible for a complete radio experience
- More channels enjoyed with 20 DAB and 20 FM preset stations

Easy to use

- Auto time synchronisation ensures accurate time without fuss
- Built-in countdown timer for convenience in the kitchen
- Large backlit LCD display for easy viewing in low light
- Audio-in for easy portable music playback

Start the day your way

- Weekday/weekend alarm setting to complement your lifestyle
- Dual alarm to wake you and your partner at different times
- Sleep timer helps you to drop off to your favourite music

Contemporary retro design

- Contemporary reinterpretation of the iconic Philetta design

Features

Iconic Philetta design

Inspired by 1955 Original Radio - This original radio mini carries forward the iconic elements of the legendary 1955 Philips radio, also known as Philetta "BF

102 U". At the time this compact radio wowed audiences with its simple design, big sound and crystal clear reception. Philips radio heritage dates back

PHILIPS

to 1927. Over the decades, many models have become renowned radio icons and collectors' items.

DAB+ and FM compatible

20 DAB & 20 FM preset stations

With 20 DAB and 20 FM preset stations, your favourite channels are always only the push of a few buttons away. To program a preset, simply tune into the desired station, then press and hold the preset button. This quick procedure allows the radio frequency to be automatically stored – for easy access whenever you like.

Auto time synchronisation

With the automatic time setting function in your clock radio, you do not ever have to set the time. The clock synchronises with radio signals automatically, even when it is switched off. It updates itself within one minute when there is an immediate need for adjustment, and makes routine synchronisations with radio signals to ensure it keeps accurate time always. From the first time you take the clock radio out of the box, to the time a power outage occurs, you can depend on your Philips product to give you the right time, fuss-free and reliably.

Built-in countdown timer

This clock radio provides the best in convenience for everyday life. A built-in countdown timer helps keep an eye on what is being cooked, ensuring safety and well-prepared dishes. Now you can walk away from the stove or oven, and relax with a bit of TV, or do other chores around the home. Once the time is up, a buzzer will sound, reminding you that your meal is ready to be served.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Weekday/weekend alarm

Designed with modern day lifestyles in mind, this clock radio has a dual alarm feature, allowing you to set different alarm times for weekdays and weekends or even vary the alarm settings for couples. The alarm settings can be tailored for the same alarm times for the entire week from Monday to Sunday. Or you can set the alarm for an early start on weekdays from Monday to Friday, and lazy lie-ins for Saturday and Sundays. Whichever you choose, this convenient feature saves you from the hassle of fiddling with different alarm times every single night.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music, or a radio station of your choice, before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch to a power-efficient, silent standby mode. Sleep Timer lets you fall asleep to your favourite CD or radio DJ without counting sheep or worrying about wasting power.

AUDIO-IN (3.5 mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device into the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.
