Highlights

LED-Technology
Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix pocket projector uses high quality LED technology to project your pictures and videos in brilliant colours and breathtaking contrast.

Integrated MP4 Media player
The integrated MP4 Media player supports all common video and audio formats. This makes the PicoPix pocket projector a standalone device, retrieving its content from the internal 2 GB memory, USB stick or a micro SD card.

USBQuickLink
For those who want to share content directly from their camera, smartphone or USB Stick, the USBQuickLink is the easiest connection to all these devices. When on-the-go, just stick the USB plug and socket together and use the USBQuickLink as a handle.
