Highlights

Perfect for all seasons

Energy saving outdoor lighting suitable for all weather conditions.

Replaces your incandescent lamp

Making the change is simple. Replace your standard bulb and enjoy all the benefits modern technologies offer.

Milky-white glass fewer shadows

With the milky-white glass, these light bulbs give a soft, diffused light effect with fewer shadows.

* Breaking a lamp is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a closed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.

** Compact fluorescent lamps have to be treated as special waste, they must be taken to your local waste facilities for recycling. The European Lighting Industry has set up an infrastructure, capable of recycling mercury, other metals, glass etc.
