

Philips PicoPix

Pocket projector

- 55 lumens
- for Notebooks

PPX2055/F7

Project your life

This small and light Philips pico projector can easily be connected to a Notebook, Netbook or Laptop via USB to display any content you want to share. Powered at the same time by the USB connection there is no need for additional batteries.

Benefits

Excellent image quality

- LED technology for brilliant colours and high contrast

Large image projection

- Project an image up to 305 cm (120") in size

Quick and easy connection

- USB for power and easy projection

Features

305 cm (120") image size

Enjoy the biggest Notebook screen you ever had and share all your media content in the impressive size of 305 cm (120").

LED-Technology

Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix pocket projector uses

high quality LED technology to project your pictures and videos in brilliant colours and breathtaking contrast.

USB Power

Sharing your media content is so easy. Just connect your PicoPix to a Notebook via USB and start projecting. There is nothing else to do. Even the power is supplied via this USB connection.
