

P501X Professional Projector

Datasheet

Perfect for mid to large meeting rooms as well as classrooms in higher education where semi-professional high brightness performance is required, the P501X is a very bright and compact conventional projector recommended for screen sizes of up to 140". Thanks to the compact design, large optical zoom of 1.7x, vertical lens shift and vertical and horizontal keystone correction, flexible integration into any room is a reality, saving unnecessary installation costs.

Customers that need advanced connectivity benefit from remote control and monitoring over wired and wireless (optional) network, also content transmission including audio is supported. A large number of input options allow you to connect all types of digital and analogue input signals.
