- Patented sonic technology for better oral health
- Removes up to 7x more plaque between teeth

[Fits your lifestyle](#)

- Three week battery life between charges
- Handy travel case and charger

PHILIPS

FlexCare Platinum

Features

9 total brushing experiences

FlexCare Platinum lets you choose from three cleaning modes — Clean, White or Gum Care — and three intensity settings — Low, Medium or High — to create a brushing experience that's perfectly tailored to you.

Improves gum health in two weeks

With a special Gum Care mode for focused cleaning to help reduce gingival bleeding and inflammation, FlexCare Platinum is clinically proven to improve gum health in only two weeks.

InterCare brush head tech

With extra-long bristles to reach deep between teeth and along the gum line, our new InterCare brush head features advanced cleaning technology to remove plaque and polish teeth, as well as reminder bristles that fade from blue to white when it's time to change your brush head.

Patented sonic technology

Unlike a traditional electric or power toothbrush, Sonicare features a patented sonic technology. Sonicare's unique dynamic cleaning action drives fluid between teeth, gently and effectively removing plaque interdentally and along the gum line.

Reaches deep between teeth

FlexCare Platinum reaches deep between teeth to provide superior plaque removal. It is clinically proven to remove 7x more plaque between teeth than a manual toothbrush.

Intuitive Pressure Sensor

FlexCare Platinum features a unique, intuitive Pressure Sensor to help reduce aggressive brushing. The handle gently vibrates to let you know when you're applying too much pressure.

Long battery life

When fully charged, your FlexCare Platinum has enough battery life for three weeks of regular use.

Quadpacer and Smartimer

FlexCare Platinum offers two timers to help encourage thorough brushing. The Quadpacer interval timer indicates when it's time to move to another quadrant of the mouth, while the Smartimer helps you reach the dentist recommended brushing time of two minutes.

Travel case and charger

It's easy to take your FlexCare Platinum wherever you need it with an easy-to-pack travel case and compact travel charger.
