- Alerts you if you're pressing too hard

Proven to improve oral health

- Improves gum health in just 2 weeks
- Safe and gentle for your oral health needs

PHILIPS
sonicare

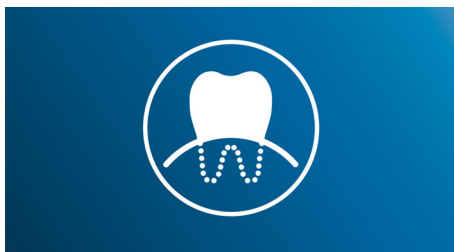

Highlights

Remove up to 7 x more plaque

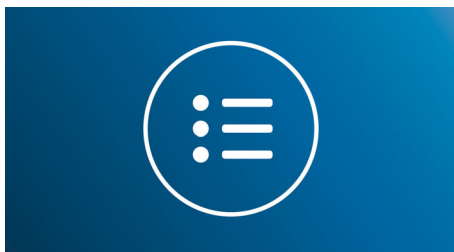

Click on our InterCare brush head to improve gum health in just 2 weeks. Extra-long bristles help remove more plaque in hard-to-reach spots and between teeth for healthy gums.

Look after those gums

With optimal cleaning from your FlexCare, gums will become healthier in 2 weeks. Removing up to 7x more plaque along the gum line than a manual toothbrush, you'll get your healthiest smile.

3 modes and 3 intensity settings

With FlexCare Platinum, you experience a truly deep clean. Our 3 intensity settings let you boost your clean, while 3 modes meet your specific needs: Clean mode for superior daily cleaning, White for removing surface stains and Clean for outstanding daily cleaning.

Too much pressure?

You might not notice if you're brushing too hard, but your FlexCare Platinum will. If you use too much pressure, the handle will gently pulsate. This is a reminder to ease off the pressure and let your brush head do the work. 7 out of 10 people found this feature helped them become a better brusher.

Philips Sonicare technology

Powerful sonic vibrations whip up your toothpaste into plaque-fighting bubbles, and drive them deep between your teeth and along your gumline. At the same time your teeth will experience 31,000 gentle but effective brush strokes. You'll get a month's worth of manual brushing in just 2 minutes.

Quadpacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our Quadpacer lets you know

when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.

Brush with confidence

Whatever your specific needs, you can be sure of a safe brushing experience with FlexCare Platinum. Our sonic technology is suitable for use with braces, fillings, crowns and veneers, and can even be used in the daily treatment of gum disease.

Designed to fit your lifestyle

Our premium travel case lets you store your toothbrush hygienically, while our compact travel charger keeps you topped up when you're on the go. You'll enjoy two weeks of regular use from a single full charge, so being on the move means you needn't miss out on that fresh feeling.
