

Case Logic Quick Sling™

Cross-body Camera Sling

DSC-101

The Quick Sling ensures the shortest time between your camera hanging idle to you shooting a photo. The Quick Sling wears comfortably cross-body and your camera rests lens-down securely at your side. When it's time to shoot, the camera glides quickly along the strap to ensure you never miss the shot.

Product Features:

1. Designed to fit DSLR, compact system, high zoom and point and shoot cameras
2. Glide hardware screws directly onto the base of your camera via the tripod mount allowing camera to rest securely at your side with lens facing down
3. Smooth glide, 360° attachment enables camera to move with body while in motion
4. Camera quickly and easily glides up the strap when you're ready to take the shot
5. Padded shoulder strap with breathable air mesh is shaped to conform perfectly around your shoulder for maximum comfort
