Turntable for LP vinyl records
Rip LP, CD, FM onto USB
4 W

OTT2000

Play your LPs again

with turntable and wireless-music streaming

The Original turntable is reminiscent of the legendary 1965 Philips AG4131 record player, and features a high-efficiency speaker, a dynamically balanced turntable as well as Bluetooth wireless streaming and USB ripping for MP3 recording.

Enjoy your music from multiple sources

- Wireless music streaming via Bluetooth
- Turntable for play back of LP vinyl records
- Play MP3-CD, CD and CD-R/RW
- USB Direct for easy MP3 music playback
- Audio-in for portable music playback
- FM digital tuning with presets
- Bluetooth®, or rip music from LP, CDs, FM onto a USB device

Design that blends into your interior

- Contemporary reinterpretation of the iconic retro design

Highlights

Play MP3-CD, CD and CD-R/RW

MP3 stands for "MPEG 1 Audio layer-7.6 cm (3)". .MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the world wide web, allowing quick and easy audio file transfer.

Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favourite music and sound from videos or games wirelessly.

USB Rip-All

With this smart feature, you can easily listen to all your music content on your Hi-Fi system directly from your portable MP3 player. Simply listen to your desired music through Bluetooth®, or rip music from LP, CDs, FM radio programmes and line-in music from your system directly to your USB device. Store your favourite LP and convert its content into MP3 format - without using a PC. You can also pre-set timer recordings of your favourite radio show on your system and it will automatically record the show onto your USB device.
