

docking speaker with Bluetooth®

- Bluetooth®
- with Lightning connector
- for iPod/iPhone
- 10W, rechargeable battery

DS7880/37

Designed to go places

Compatible with iPhone 5 and the latest iPods through the Lightning connector, DS7880 docking speaker delivers powerful sound and ensures wireless streaming. Designed for travel, it also comes with rechargeable battery and a carrying pouch.

Benefits

Sound that blows you away

- wOOx technology for rich yet precise bass without distortion
- DBB to preserve low tones for deep bass at any volume level
- Shielding technology to block mobile phone interference
- 10W RMS total output power

Advanced versatility

- Fast charging and play music via Lightning connector
- Wireless music streaming via Bluetooth

Made to go places

- Built-in rechargeable Li-ion battery for long music playback
- Carrying pouch included

Truly portable and versatile

- Audio-in for easy portable music playback
- Elegant, slim and compact design to fit into any briefcase

PHILIPS

Features

Play and charge via Lightning

Enjoy your favorite music while charging your iPod/iPhone via the new Lightning connector! Just dock it directly on the speaker to play your hand-picked tunes in superb sound. It also charges your device quickly while playing, so you don't have to work about the battery running out.

wOOx technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise base without noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

Dynamic Bass Boost (DBB)

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

Specifications
