

Philips
docking speaker

- for iPod/iPhone
- Battery/AC powered

DS7600/05

Designed to go places

Obsessed with sound

Compact and extremely portable, this speaker is no lightweight when it comes to performance. Designed to travel, it delivers sound from your iPod/iPhone that is surprisingly powerful - letting you enjoy great music wherever life takes you.

Benefits

Sound that blows you away

- wOOx technology for rich yet precise bass without distortion
- DBB to preserve low tones for deep bass at any volume level
- Shielding technology to block mobile phone interference

Made to go places

- Elegant, slim and compact design to fit into any briefcase

Truly portable and versatile

- Dock any iPod/iPhone, even in its case
- Battery or AC power option for music enjoyment anywhere
- AUX-in for easy connection to almost any electronic device
- Crushproof and shockproof for safe transit
- Free DockStudio app for Internet radio and other cool features

PHILIPS

Features

wOOx technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise bass without noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

Dynamic Bass Boost (DBB)

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Dock iPod/iPhone in its case

Smartly designed spring-loaded docking port effortlessly accommodates any iPod or iPhone, without special adapters. What's more, it works even when most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.

Crushproof and shockproof

This portable docking speaker is built for worry-free handling. Featuring state-of-the-art engineering, the docking station is innovatively constructed for the ultimate in shock-absorbency and structural rigidity. Built to withstand drops of up to two metres and the pressure of weights of up to 100 kg/220 pounds, the dock's unmatched ruggedness means you can truly bring it everywhere you go, knowing that it will emerge safely from transit.

DockStudio app on App Store

The free app adds an array of exclusive cool features to your docking speaker. You can check the weather, tell the time and even use your favourite images as wallpaper. DockStudio also lets you listen to thousands of Internet radio stations worldwide. More updates on skin styles and new functions on the way.
