Series 8000 - Ultimate shaving experience

with GyroFlex 3D system

The Philips Norelco Shaver 8100 (formerly called SensoTouch 3D) provides the ultimate shaving experience. The Gyroflex 3D system follows every contour of your face and shaves every hair with fewer strokes with its UltraTrack heads.

Designed for comfort

- Contour-following shaver minimizes pressure and irritation
- Skin friendly precision trimmer
- Smooth surface glides over your skin

Protective seal for wet or dry shaving

- Comfortable shaving, wet or dry, thanks to the AquaTec seal

Cordless, travel-friendly design

- One-hour charge provides up to 17 days of shaving time
- Worldwide voltage system adjusts automatically

Innovative technology for a closer shave

- Shaver lifts hair to cut below skin level
- Shaving heads catch and trim every hair

Wet & dry electric shaver, Series 8000

1250X/40

Highlights

GyroFlex 3D system

Its GyroFlex 3D system has three dynamic parts that move independently, flexing outward, pivoting around, and tilting inward to follow the contours of your face.

UltraTrack shaving heads

The UltraTrack shaving heads catch every hair in just a few strokes with three specialized shaving tracks: slots for long hairs, channels for longer hairs, and holes for the shortest stubble.

Aquatec - Wet or Dry shaving

With the SensoTouch 3D, you can shave any way you want. The AquaTec seal gives you the option of either a comfortable dry shave or a refreshing wet shave with shaving cream or gel.

Super Lift and Cut

The patented Super Lift&Cut dual blade system lifts hairs to cut comfortably below skin level for a close, even shave.

SkinGlide shaving surface

With a low-friction SkinGlide shaving surface, the razor slides smoothly along your skin for a close shave without irritation.

Rechargeable cordless

The cord-free SensoTouch 3D charges in one hour and provides up to 50 minutes (or a maximum of 17 days) of shaving time. A display lets you know how much power remains in the lithium-ion battery and when you need to replace the blades.

Great for travel

An excellent travel companion, SensoTouch features a travel lock, protective cap, and storage pouch for safe portability. SensoTouch also has a worldwide voltage function that automatically adjusts from 100 volts to 240 volts AC, making it ideal for international trips.

Precision trimmer

Philips Norelco's best shave yet, SensoTouch 3D gives you the ultimate shaving experience. The unique skin friendly precision trimmer system is built to avoid unnecessary skin contact. Easy to use for perfect moustache and sideburn trimming.
