- Wi-Fi Miracast™—mirror your devices on your TV

A richer entertainment experience

- Perfect Pixel HD—our Award-winning picture quality engine
- 900 Hz Perfect Motion Rate (PMR) for superb motion sharpness

PHILIPS

Highlights

Ambilight 4-sided XL

Imagine your TV floating in a halo of light. Our most amazing Ambilight experience ever projects an extra-wide glow around all 4 sides of your TV onto the surrounding wall. Your screen seems much wider, your experience more enhanced... and your TV appears to float on air. The coloured halo automatically adjusts to match the TV picture, and thanks to a wall-adaptive function, the colour of the light is perfectly matched with the TV picture, regardless of your wall colour.

Prism Technology

Experience the emotion, colour and power of Ambilight on your Ultra-Slim TV. Prism technology makes it possible to position Ambilight LEDs in the centre at the back of the TV. Smart algorithms direct the light that bounces between your wall and TV, expanding outwards to bring you the largest and softest Ambilight halo ever.

Clear Stand

Our first TV with Ambilight 4-sided XL deserves a stand that elevates it above the ordinary. That's why Philips TV created a clear stand so it blends seamlessly with the furniture it sits on, visually giving this TV a floating effect.

Wall mount Ambilight 4-sided XL

Philips has specifically designed a wall mount (included with purchase) to be used together with Ambilight 4-sided XL to deliver the ultimate floating effect.

Smart TV online apps

Explore the boundaries that lie beyond traditional TV. Rent and stream films, videos, games and more, directly onto your TV from online video stores. Watch catch-up TV from your favourite channels and enjoy a rich selection of online apps with Smart TV. Connect to family and friends with Skype™ or social networking. Or... just browse the Internet!

Skype™ TV video calls

Add a new dimension to your calls and share experiences with the people that matter to you, wherever they are. With Skype™ on your TV, make voice and video calls from your living room. Just plug the Philips TV camera (included with purchase) into your TV and enjoy excellent video and sound quality from the comfort of your sofa.

Pointer with keyboard remote

Our totally intuitive remote control has all the usual perks like cursor keys, volume control and shortcut buttons. And, for something extra, simply click and hold the OK key for easy navigation. The pointer operates as a mouse allowing you to point, click and scroll easily onscreen. Flip this remote over and there's a full keyboard for easy text entry on the other side! Best of all, our intelligent remote has gyroscopic sensors, so it knows up from down—which means you can text without worrying about changing channels.

MyRemote*

Control your TV and record on the go without a remote control using one easy app. Transform your tablet or smartphone into a universal remote with all the options of your original remote plus extra features like text entry. The SimplyShare function beams content onto your TV. Push digital broadcast TV onto your devices using the Wi-Fi smart screen. Stay up to date by recording your favourite programmes on the go using MyRemote recording. Simply flip through the content on the TV Programme Guide to choose which shows to record and view later. A Smart TV deserves a truly smart app.

Wi-Fi Miracast™*

Watch what you want, where you want, when you want. Mirror the content on your devices and view it on the big screen. Share photos from your smartphone, laptop screen and more. Connections are easy to set up and the technology works across multiple devices.

Perfect Pixel HD

Designed to deliver our most advanced flicker-free pictures with unrivalled sharpness and clarity. Each pixel that composes the picture is enhanced to better match the surrounding pixels. The result is a unique combination of sharpness, natural detail, vivid colours, superior contrast and smooth natural motion.

Smart TV

Smart TV—a world of online apps, videos to rent and catch-up. Explore the boundaries that lie beyond traditional TV. Rent and stream films, videos, games and more, directly onto your TV from online video stores. Watch catch-up TV from your favourite channels and enjoy a rich selection of online apps with Smart TV. Connect to family and friends with Skype™ or social networking. Or... just browse the Internet!

Quad-Core processing

Quad-Core processing for premium PQ and super-fast Smart TV. The power of multiple cores—spread over multiple processors—increases the overall speed of running applications while processing all images in real time. This provides you with the best picture quality regardless of the content, and allows you to simultaneously enjoy the best images, make video calls and chat super-fast... and all on your TV.

* Parents should monitor their children during 3D viewing and ensure they do not experience any discomfort as mentioned above. Watching 3D is not recommended for children under 6 years of age as their visual system is not fully developed yet.

* The TV supports DVB reception for 'Free to air' broadcast. Specific DVB operators may not be supported. An up to date list can be found in the FAQ section of the Philips support website. For some operators Conditional Access and subscription are required. Contact your operator for more information.

* Energy consumption in kWh per year based on the power consumption of the television operating 4 hours per day for 365 days. The actual energy consumption will depend on how the television is used.

* EPG and actual visibility (up to 8 days) is country- and operator-dependent.

* MyRemote app and related functionalities varies according to the TV model and country, as well as smart device model and OS. For more details, please visit: www.philips.com/TV.

* For smart TV app, visit www.philips.com/TV to discover the services offered in your country

* USB recording for digital channels only, recordings may be limited by broadcast copy protection (CI+). Country and channel restrictions may apply.

* Compatibility depends on Wi-Fi Miracast certification Android 4.2 or later. For more details please refer to your device documentation.
