

FSW-1650 Versione H/w: 6

Switch Fast Ethernet 16-porte

Product OverviewThe FSW-1650 switch provides an ideal solution for small businesses that demand a reliable network switch that provides a high bandwidth interface between file servers and workgroups, departments and offices.

Advanced Networking FeaturesThe LevelOne FSW-1650 is a wire-speed, nonblocking 16 port Fast Ethernet Unmanaged Switch with an internal power supply. It provides a network with an 8K MAC address table, 3.2Gbps backplane throughput, asymmetrical flow-control support for full-duplex network connectivity, auto-negotiation and Auto-MDIX. The 16-port Fast Ethernet Switch utilizes packetstore- and forwarding switching for error-free data transmissions and IEEE802.3x backpressure flow control to control data flow between the sending and receiving nodes as well as to prevent any data packet loss.

Compact DesignThe FSW-1650 is a compact designed network switch. Users can place the switch on any desktop area or mount it in a 19-inch server rack or cabinet by using the included rack-mounting accessory kit.

Quick Configuration and Easy MaintenanceThe LevelOne FSW-1650 does not require any software configuration. It is Plug-and-Play enabled for quick set-up and immediate use within the Local Area Network. The 16 port Faster Ethernet Switch is equipped with a full range of LEDs for instant error detection, networking monitoring and networktroubleshooting.

Caratteristiche

- Fornisce la flessibilità di 16 porte 10/100BASE-TX
- 10/100Mbps-Full/Half-duplex, Negoziazione automatica, Auto-MDI/MDIX
- Supporta 8.000 indirizzi MAC auto-learning e auto-aging
- Il controllo del flusso IEEE 802.3x protegge dalla perdita di pacchetti per la trasmissione affidabile dei dati
- Minimizza l'impronta di carbonio con tecnologie avanzate ad alta efficienza energetica (IEEE 802.3az)

Specifications

System Specifications

Standards:

IEEE 802.3i

IEEE 802.3u

IEEE802.3x

IEEE802.3az

Memoria Buffer:

2MB

Porta:

half Shielded

Indicatore:

Power, LINK/ACT

Metodo trasmissione:

Store- forward

Potenza Ingresso:

100-240V/AC

Consumo Energia:

2.75W

Backplane (Gbps):

3.2Gbps

Tabella Indirizzi MAC:

8K

Temperatura di esercizio (° C):

0°C~45°C

Umidità operativa (senza condensa):

10%~90%

Temperatura di conservazione (° C):

-40°C~70°C

Umidità di stoccaggio (senza condensa):

5%~90%

Features

Generale:

16port10/100Mbps

Performance

Velocità di inoltro del pacchetto:

148800pps

Jumbo Frame (K):

2KB

Physical Specifications

Dimensioni (L x P x A mm):

440x140x44mm

Peso (g):

1.6kg
