

Philips BEARDTRIMMER  
Series 9000  
waterproof beard trimmer  
with World's first laser  
guide

0.2mm precision settings

Full metal dual-sided trimmer  
60mins cordless use/1h charge  
with laser guide

BT9290/32

## Ultimate precision

The only beard trimmer with a laser guide

Experience superb control on contours with the exclusive laser guide. It allows you to create the precise and symmetric style you want with confidence.

### Precision

- Use the unique laser guide for precise, symmetric results
- The zoom wheel 'locks in' your chosen length setting
- Dual-sided trimmer: 32mm and 15mm sides for perfect details
- The 0.4mm stubble setting gives you a 3-day beard every day

### Skin-friendly performance

- Skin-friendly, high-performance blades for the perfect trim

### Easy to use

- 100% waterproof for easy cleaning
- Detail comb for precision, and beard comb for control
- The LED display clearly shows your chosen length setting
- LED display shows the battery level
- 2-year guarantee, worldwide voltage, no oil needed
- 60 minutes cordless use after a 1-hour charge, or plug it in
- Protective pouch for travel and storage

# PHILIPS

Waterproof beard trimmer with World's first laser guide  
0.2mm precision settings Full metal dual-sided trimmer, 60mins cordless use/1h charge, with laser guide

BT9290/32

# Highlights

## World's first laser guide

The unique laser guidance system projects a sharp line of light to pre-align your style before you trim. It will point out where the hairs will be cut so you get it right every time.

## 17 lock-in length settings

To select your preferred trim length, just turn the zoom wheel on the handle until the length you want is displayed. Your chosen length is now 'locked in' for a precise and even trim.

## Dual-Sided trimmer

Take off the adjustable length comb, and there's a reversible, dual-sided precision trimmer underneath. One side is a 32mm high-performance trimmer. Turn it around, and there's a 15mm-wide precision trimmer – perfect for getting into small spaces, like under your nose or around your mouth. It's designed

to cut very close while still protecting your skin, and its small size and angled design make it easy to see what you are doing for fine lines and details.

## Skin-friendly high performance

The steel blades lightly brush against each other, so they sharpen themselves as you trim! The blades stay extra-sharp to always cut hairs neatly and effectively, but have rounded blade tips and combs to prevent skin irritation.

## 100% waterproof

To clean the trimmer head, simply rinse it under the tap.

## Detail and beard combs

The detail comb gives you more precision as you trim. Use it instead of the beard comb to get into tight spots, or to round off the edges of

your beard. The beard comb gives you more control for a fast and even trim.

## LED display

The LED display shows your chosen length setting in millimeters, so you're always in control of your style.

## LED battery level indicator

The LED display indicates the battery level, so you're never caught short.
