- 4.1 CH wireless surround sound
- Bluetooth® aptX, AAC and NFC
- 2 HDMI In & HDMI out ARC
- Wood and leather

CSS7235Y/12

Powerful cinematic surround sound

with detachable speakers

Philips Fidelio E5 speakers bring real surround sound to home cinema with wireless detachable rear speakers and subwoofer. Audiophile-grade drivers deliver balanced dynamic sound. Premium finishes complement any stylish home décor.

Benefits

Richer sound for watching TV and movies

- Premium soft dome tweeters for Crystal Clear Sound
- Dolby Digital and Pro Logic II surround sound
- Surround on Demand - detachable wireless surround speakers

Connect and enjoy all your entertainment

- Bluetooth® (aptX® and AAC) for wireless music streaming
- One-Touch with NFC-enabled smartphones for Bluetooth pairing
- Connect to HDMI x 2 for great picture and sound quality

- HDMI ARC to access all the sound from your TV

Designed to enhance your living space

- Wireless subwoofer for clutter free placement
- Luxurious cloth perfectly defined for best sound performance
- Minimalistic chic design to suit a modern decor

PHILIPS

Features

Premium soft dome tweeters

With Philips' Crystal Clear Sound, you will now be able to discern and appreciate every sound detail, the way it's meant to be heard and as the artist or director intended! Crystal Clear Sound reproduces the sound source - whether it's an action movie, a musical or a live performance - faithfully, precisely and without any distortion. Philips home theaters with Crystal Clear Sound keep audio processing to a minimum, preserving the purity of the original audio content. The result is greater sonic accuracy delivered to your ears.

Bluetooth® (aptX® and AAC)

Bluetooth® (aptX® and AAC) for wireless music streaming

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing, and begin streaming music.

HDMI x 2

Enjoy larger-than-life 3D playback and crystal-clear 5.1 or 7.1 audio by simply plugging our player's audio HDMI x 2 output to the connection in your non-3D AV receiver.

Dolby Digital and Pro Logic II

A built-in Dolby Digital decoder eliminates the need for an external decoder by processing all six channels of audio information to provide a surround sound experience and an astoundingly natural sense of ambience and dynamic realism. Dolby Pro Logic II provides five channels of surround processing from any stereo source.

Surround on Demand

Submerge your listening senses in superb surround sound whenever you want it. Simply detach the wireless surround speakers from the left and right main speaker units and place them at the rear of the room to get multichannel surround sound experience with your games and movies. When the action is over, reattach the speakers for music and TV shows. Using proprietary wireless audio technology with surround speakers that operate on a unique frequency, there is no network interference. The result is a completely wireless surround system with lossless audio quality for music and movies.
