

HDMI over Single Cat 5e/6 Extender with Power over Cable Ethernet and IR - 330 ft

Product ID: ST121HDT4P

The ST121HDT4P HDMI® over CAT5e/6 Video Extender kit lets you extend HDMI video and audio by up to 330 feet (100 Meters) over a single Cat5e/6 cable. For added versatility both the extender and receiver can be powered by the same single power source using Power Over Cable (POC).

This versatile HDMI extender also allows you to extend infrared for an IR Remote Control, and 2 Ethernet LAN connections over the same Cat5e/6 cable.

With the A/V industry adopting 4K as its new high-resolution standard, long-range video distribution can be difficult, especially considering the 4K distance limitations on standard HDMI cables. You'll be amazed at how this HDBase-T extender kit can deliver your 4K video signal at up to 295 ft. away from your video source.

The extender kit is also backward compatible with 1080p at 330 feet (100 m), so you can comfortably use it to make any video source look great.

The HDMI over Cat6 Video Extender kit includes both the local transmitter and remote receiver units, perfect for point-to-point digital signage applications that require high quality HDMI video.

For additional distance, HDMI cables up to 32-feet (10-meters) in length can be used on the local and remote end.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Extend HDMI when power outlets are limited, with only a single power adapter required at the Transmitter, using Power Over Cable
- Place the display in a convenient viewing area, while the system equipment is placed elsewhere in a clean and secure environment
- Optimize placement of your demo stations at tradeshow and in auditoriums
- Perfect for video conferencing solutions in boardrooms and office settings

Features

- Power Over Cable, allows a single power source to operate the transmitter and Receiver
- Astonishing picture quality with support for UHD 4K resolutions at up to 295 ft. (90 m)
- Supports HD 1080p resolutions at up to 330 ft. (100 m)
- Supports Cat5e or Cat6 Ethernet cabling
- No software/drivers required
- 330ft (100m) Maximum HDMI extension
- Includes transmitter (local) and receiver (remote) units
- 2x Ethernet LAN Extension
- IR Remote Control Extension
