HPS930/00

Professional straightening with titanium plates

Philips Straightener Prestige Pro offers fast professional performance with titanium floating plates. Start straight away, with only 10 seconds of heat-up time, and enjoy optimal control with digital temperature settings.

Beautifully styled hair

- Titanium-coated plates for fast and smooth straightening

Less hair damage

- Prevent hair breakage with floating plates
- Ionic care for smooth, frizz-free, shiny hair

Easy to use

- 100 mm long plates for fast and easy straightening
- Instant heat-up time of only 10 seconds
- 2.5 m cord
- Digital temperature settings for absolute control
- Heat protection cap
- 2 year warranty, with 3 extra years upon online registration

Highlights

Titanium-coated plates

Professional titanium-coated plates for best heat conduction. This superior plate material is durable and transfers heat quickly, resulting in fast and smooth straightening.

Floating Straightening Plates

The floating plates move when too much pressure is applied during straightening. This protects the hair shaft from damage and therefore avoids overall hair breakage.

Long professional plates

The longer 100 mm plates enable better contact with the hair to help you achieve perfect straightening results more easily and in less time.

Ionic care

Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is smooth, shiny and frizz-free.

10-sec. heat-up time

The high-performance heater used in combination with the titanium plates enables an instant heat-up time of only 10 seconds. Switch it on and you're ready to start straightening.

Digital temperature settings

Easily set and style your hair, with variable temperature settings from 140°C to 230°C. The unique combination of the temperature setting wheel and digital display gives you precise control, for professional results.

2.5 m cord

The professional 2.5 m cord reinforces the ease of use anywhere you want.

Heat protection cap

A practical accessory that lets you store the straightener quickly after usage.

Long-lasting warranty

Extend your 2 year warranty, with 3 extra years if you register your product online within 3 months of purchase.
