Highlights

Plug-in

This fixture plugs directly into an outlet for easy installation.

PowerLED, high light output

The PowerLED module in Philips light fixtures offer great strong light output using a minimum of energy with a maximum of efficiency.

Saves up to 80% energy

The LED lighting technology used in Philips lighting fixtures is highly energy-efficient. As a result, every lighting fixture conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

Warm white light effect

Light up your home with warm white light. Philips introduces a generation of warm white high power LEDs. This innovation brings our lighting fixtures to the next level, allowing you to combine elegance and ambience creation with light and energy efficiency.
