Sustainable light solutions

- Saves up to 80% energy

Elegant design meets innovative technology

- Simple designs and expressive lines

Ease of Use

- Adjustable height
- Dimmable with low-voltage electronic dimmer

PHILIPS

Features

Innovative LED technology

The PowerLED module foreseen in this Philips light fixture offers great strong light output using a minimum of energy with a maximum of efficiency.

Timeless unique design

Is lighting more than just a functional solution to the problem of darkness? Philips answers that question in an uncompromising and provocative way with designs that inspire you to create the light and control the shadow in your environment.

Warm white light effect

Light up your home with warm white light. Philips introduces a generation of warm white high power LEDs. This innovation brings our lighting fixtures to the next level, allowing you to combine elegance and ambience creation with light and energy efficiency.

Saves up to 80% energy

The LED lighting technology used in Philips lighting fixtures is highly energy-efficient. As a result, every lighting fixture conserves energy, helping

consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

Adjustable height

This Philips light is delivered with long cables to offer you a maximum flexibility during installation. Choose the perfect height matching your needs.

Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long life of at least 50,000 hours.

Dimmable

This fixture is compatible with a low-voltage electronic dimmer.
