

Power Management Tools - External SNMP Webcard Module

MODEL NUMBER: **SNMPWEBSOLOHV**

Highlights

- External SNMP/Web management accessory card module
- Simple installation and setup

Package Includes

- SNMPWEBSOLOHV
- Software CD
- Manual

Description

Tripp Lite's SNMPWEBSOLOHV allows network users to operate the APSX6048VRNET Inverter/Charger as a managed device on the network. The SNMPWEBSOLOHV enables remote monitoring of the inverter/charger using an SNMP network management platform or a web browser and provides remote viewing of status information. Optional ENVIROSENSE module provides remote temp/humidity monitoring and a dry contact interface to control and monitor alarm, security and telecom devices.

Features

- Makes APSX6048VRNET a managed device on the network using SNMP network management platform or a web browser
- Enables remote APS monitoring and control in racks, computer rooms and data center environments
