# Highlights

## Modern style

The Modern style encapsulates the art of understatement. Simplicity and functionality are key, designs are often stark and minimal. With fewer elements to distract your eyes, modern design quality is reflected by the craftsmanship, intrinsic beauty, and even technology found in the materials used. The spirit behind Modern Design is to challenge the norm, to push the creative boundaries.

## Indoor

When decorating your home with light, consider if the area requires general lighting, accent lighting, task lighting, or perhaps all three, to complete the necessary layers of light for comfortable ambience.

## a la carte

Lighting the way you want it! A la carte is a simple concept that allows the combination of different fixture frames and shade options to create a custom look from standard components.

## Order holder separately

Select the appropriate pendant, chandelier or sconce holder for your application from our wide selection, and then choose the shade or glass option designed to install perfectly onto the holder to complete your customized light fixture.
