

Wall light

- Hydrate
- chrome

34082/11/16

## Freshen up with beautiful natural light

Despite its proximity to water, this Philips myBathroom Hydrate wall light is sealed against moisture. It has a quality glass diffuser, chrome base and switch for comforting white light that is optimal and accurate with skin color.

### Benefits

#### Designed for your bathroom

- True skin color with high quality light
- IP21, perfectly suited for your bathroom

#### Sustainable light solutions

- Warm white light
- Always a Philips bulb included
- Adjustable light intensity with dimmer switch

- Energy saving

#### Special characteristics

- Cable exit
- On/off switch on article

**PHILIPS**

## Features

### True skin color

This Philips bathroom light makes colors reflect in a natural and accurate way. Just the way the sun would do.

### Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

### Always a Philips bulb included

High quality Philips light bulbs are included in the box to achieve the best light effect.

### Cable exit

A cable exit allows you to mount the lamp on your wall and connect it with a normal wall plug.

### Dimmable

Adjust the light intensity of this Philips light with a dimmer switch (not included). This makes this light ideal for highlighting a feature or creating an ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living room.

### Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

### IP21 - bathroom safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP21: it is protected against dripping water.

### On/off switch on article

With the button discreetly integrated onto the lamp, you can easily switch the light on and off.
