

Philips
Ceiling light

- Thermen
- grey

32082/87/16

Freshen up with beautiful natural light

For roomier bathrooms, the light grey Philips myBathroom Thermen ceiling light provides bright light, colour accuracy, energy efficiency and moisture protection. It provides a spa-like aura, for an ambience that is as breath-taking as it is enduring.

Benefits

Designed for your bathroom

- True skin colour with high-quality light
- IP44, perfectly suited for your bathroom

Sustainable light solutions

- Warm white light
- Philips bulb always included
- Energy saving

Features

True skin colour

This Philips bathroom light makes colours reflect in a natural and accurate way, just the way the sun would do.

PHILIPS

Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Philips bulb always included

High-quality Philips EcoLamp energy-efficient light bulbs are included in the box for achieving the best light effect.

Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

IP44 - bathroom-safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP44: it is protected against splashing water. This product is most commonly used and ideal for the bathroom.

Specifications
