A simple way to beautify your home

Saves up to 80% in energy costs

Philips AccentLED light bulbs are the smart alternative to standard incandescent bulbs. They deliver exceptionally long life, significant energy savings, beautiful light, rugged construction and contain no mercury.

Energy efficient

- Replaces a 15W incandescent candle
- Saves up to \$28.60 in energy costs over the life of the bulb

Long lifespan

- Lasts at least 18.3 years

Perfect Shape

- Fits easily into existing fixtures
- Ideal for chandeliers and other decorative light fixtures

Sustainable choice

- Reduce greenhouse gases and shrink your carbon footprint
- Contains no mercury

* 18.3 years means rated average life based on engineering testing and probability analysis where the lamp is used on average 3 hours/day, 7 days a week.

* At \$.11 per kWh, this 2W, 70 lumen LED bulb uses \$4.40 of electricity over its 20,000 hour life. This is a \$28.60 savings when compared to the \$33 required to run a 15W, 110 lumen incandescent candle over the same period. Actual savings will vary depending on cost per kWh.
