#### Sustainable light solutions

- High quality LED light
- Philips offers 5 year warranty on the LED module and driver

- Warm white light
- Energy saving

#### Special characteristics

- On/off switch on article

**PHILIPS**

## Features

### High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

### 5 year warranty on LED system

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

### Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

### Accurate colors

This Philips kitchen light makes colors reflect in a natural and accurate way. Just the way the sun would do.

### Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

### On/off switch on article

With the button discreetly integrated onto the lamp, you can easily switch the light on and off.

### Connectable product

This product is connectable with a similar product or with any other product from the same family.

## Specifications

[field not found 'disclaimer\_text']

### Design and finishing

Material	synthetics
Color	other

### Extra feature/accessory incl.

On/off switch on article	YES
LED integrated	YES
Diffused light effect	YES
