SB170/37

Clock radio for your smartphone

Start your day with the Philips clock radio speaker. It delivers great sound via Bluetooth and fast charging for smartphones/tablets via the USB port. For added convenience, One-touch with NFC enabled smartphones for easy Bluetooth pairing

Benefits

Enrich your sound experience

- Wireless music streaming via Bluetooth
- Audio-in for portable music playback
- 6W RMS total output power
- FM digital tuning

Easy to use

- One-Touch with NFC-enabled smartphones for Bluetooth pairing
- Clock display for clear time viewing

- USB port to charge any mobile device

Start the day your way

- Dual alarm to wake you and your partner at different times
- Sleep timer for easy falling asleep to your favorite music
- Gentle wake for a pleasant wake up experience

PHILIPS

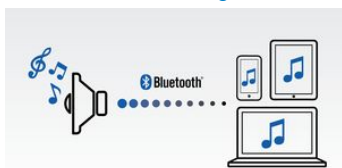

Features

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing, and begin streaming music.

Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

Audio-in

The Audio in connectivity allows direct playback of Audio in content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.
