

Case Logic Luminosity™ Collection

Small DSLR / CSC Messenger Bag

DSM-101

Adjustable foam walls and dividers allow you to custom design storage for your compact system camera or compact DSLR camera, 2 lenses, flash or accessories. Unique fold away flap offers convenient top access to gear while keeping bag open so you are able to wear a work-out of station.

Product Features:

1. Customize your own storage for compact system camera or DSLR camera, 2 lenses, flash or accessories with adjustable foam dividers and short snake divider to use as a wall or hammock
2. Unique fold away flap provides convenient top access to gear – simply fold and velcro the main compartment open and you are suddenly wearing your work-out of station
3. Front organizer pocket safely stores wallet, phone and non-camera related items
4. Fasten bag with hook-and-loop and buckles, or easily modify to a silent closure – integrated hook-and-loop patch cover eliminates scratch sound for quiet settings
5. Removable weather cover protects backpack from the elements – can be stored in dedicated bottom pocket, attached by adhesive straps, or removed completely to dry or clean
