Epson **AcuLaser C900N**

Superior colour printing for professional applications within the network (Ethernet 10/100)

For the first time, you can now bring the power of high quality colour to your documents without suffering the high costs or low speeds traditionally associated with colour laser. Epson's AcuLaser C900is essentially two printers in one. Firstly, it's a high performance monochrome laser that costs the same to run, perhaps even less, than a mono-only printer. With colour printing this good, buying a mono-only printer is now a thing of the past.
