- 18 secured length settings from 1 mm up to 18 mm

Provides optimal power

- Corded and cordless use for maximum power and freedom
- Strong lithium-ion battery for optimal power use
- Turbo power boost button boosts cutting and fan speed

PHILIPS

Features

Contour-following comb

Flexing guide comb that follows every curve of your face for an even trim, easily and comfortably.

Multifunctional display

Multifunctional display shows the length setting easily

Travel lock

Travel lock option protects your product against unintentionally switching on when you are carrying it in your bag.

Integrated vacuum system

The integrated vacuum mechanism absorbs cut-off hairs during use and gives you a cleaner washbasin after use.

18 secured length settings

Select and locks your desired length within a versatile range of possible lengths.

Stubble comb

The stubble comb has been designed to increase visibility during trimming as there are no frontal teeth. Moreover, fine contours are possible by applying the tip of the trimmer at different angles on the skin. This allows for greater control with each individual hair length. This comb is ideal for a perfect stubble or a 5 o'clock shadow where every detail counts.

Corded and cordless use

Use your Philips trimmer corded or cordless with the recharged battery for maximum power and freedom.

Powerful Lithium-Ion battery

This product has a powerful lithium-ion battery with quick charge so you can charge the product in only 1 hour for 75 minutes' use.

Turbo power boost button

When greater suction power and increased cutting speed is desired while trimming, simply press the Turbo Power Button.

2 year guarantee

All of our grooming products are built to last. They come with a two year worldwide guarantee and worldwide voltage compatibility.

Beardtrimmer series 7000
