

Alarm clock

- Multicolor moodlight
- USB port for charging
- Alarm, Natural sound
- Plug and set

AJH510/37

Wake up & fall asleep with nature

Also enjoy multi-colored mood-lights

Fill your bedroom with the calming calls of nature or tunes. Pick from a list of these and use any of the 20 in alarms, or the sleep timer that gently fades music out. The Philips Alarm clock also offers multi-colored mood-lights.

Benefits

Fall asleep with nature

- 20 nature sounds & tunes for falling asleep & waking calmly
- Peaceful sleep timer with gradual music fade-out
- Adjustable alarm volume for reliable wake up calls
- Gentle wake for a pleasant wake up experience

Designed to fit your bedroom

- Mood-lights control for color loop or desired ambience

- Multi-color mood-lights to match your style
- Adjustable display brightness for comfort viewing

Easy to use

- Plug and set the time automatically
- Time and alarm backup for on-time wakeup even with power cut

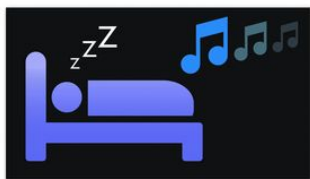

Features

Mood-lights color control

Play the mood-lights to let the colors loop - and enjoy a vibrant ambience. Or pause the lights to stop at a color you simply like, or a color that matches your room or your mood.

PHILIPS

Peaceful sleep timer

This soothing sleep timer allows you to program the required length of time for music fade-out to coincide with how long you normally take to fall asleep. Besides its power-saving capabilities, it also helps to ease you into blissful slumber by eliminating the need to adjust the volume or the shock of an abrupt end to the background music as you start to doze off.

Plug and set

Take the clock out of its box, plug it in and the time is already set for you - automatically. The intelligent clock reads preprogrammed data and sets the correct time according to the default time zone. If you are living outside the default time zone, all you have to do is press the Time zone button and the clock will reset the time. No more reading manuals, no more fiddling with buttons.

Specifications

Dimensions

Packaging type	D-box
Product dimensions (WxDxH)	144 x 65 x 144 mm
Packaging dimensions (WxDxH)	222 x 96 x 164 mm

Time and alarm backup

When there is a power failure, this intelligent clock will still maintain and keep its reliable time and your settings. The scheduled alarm remains active even when its display is off - all thanks to a pre-installed battery. When the power comes back on, there is no need to adjust the clock or reinstate settings. More amazingly, even if power supply is not restored, the battery provides enough energy for the buzzer to go off at the alarm time you have set - making sure you never wake up late.
