

Wireless Display Adapter with HDMI - 1080p

StarTech ID: *WIFI2HDMCGE*

Wirelessly broadcast your smartphone, tablet, or laptop onto any HDMI display with this wireless Miracast and WiDi adapter. The HDMI over wireless adapter natively supports Miracast or WiDi-enabled mobile devices such as Android smartphones & tablets, and Windows® 8.1 laptops, Ultrabooks & Surface tablets. Additional Software is also included with the WiDi receiver for guaranteed compatibility with Windows based computers through a standard Wi-Fi or wired LAN connection.

Connect

Keep your boardroom free of clutter by wirelessly connecting your HDMI projector to almost any mobile device. With native support for a broad range of Miracast and WiDi smartphones and tablets including Samsung devices that run All-share and Screen Mirror software, this Miracast receiver is perfect for BYOD (Bring Your Own Device) office and boardroom applications.

Collaborate

Synergize with your co-workers by effortlessly and wirelessly sharing and switching your display between different video source devices. The Miracast / WiDi adapter has an intuitive interface that ensures hassle-free

operation.

Communicate

Your mobile device is designed to be portable. This means the screen is too small to share with more than two people. Present big ideas on the big screen from the comfort and portability of your own smartphone, tablet, or laptop.

WIFI2HDMC Miracast Wireless Receiver

Playback isn't supported on this device.
