

Product Specification

8GB Courier FIPS 197 Encrypted USB 3.0

Integral Courier FIPS 197 encrypted USB 3.0 flash drive is a fast and secure solution for transferring your sensitive documents, photos, music, videos and other kinds of data. 256-bit hardware encryption ensures strong security, while the distinctive translucent blue case makes the drive an attractive accessory. Compatible with Window's XP / Vista / 7 / 8.1 / 10, 11, Mac OS X and all popular desktop and laptop brands such as Dell, Toshiba, Apple MacBook and iMac, ASUS, ACER, Samsung, HP and more. Speeds based on internal testing, performance may vary based on system configuration.

- Certified to FIPS 197 - High-level information security standard approved by the U.S. Government
- Brute-Force Password Attack Protection - Data is automatically erased after 6 failed access attempts. The data and encryption key are securely destroyed and the crypto drive is reset
- Auto-lock - The crypto drive will automatically encrypt all data and lock when removed from a PC/Mac or when the screen saver or "computer lock" function is activated on the host PC/Mac
- Secure Entry - Data cannot be accessed without the correct high-strength alphanumeric 8-16 character password. A password hint option is available. The password hint cannot match the password
- SuperSpeed USB 3.0 - Transfer all your confidential files and folders faster than ever before. Works on both PC & Mac
- Zero Footprint - No software installation is required before use, simple & easy to setup with no licencing or subscription fees
- Mandatory AES 256-bit Hardware Encryption - Superior protection vs. software encryption and ensures all data stored on the drive is secure
