1 Install

- 1 Insert the CD supplied with your product into the CD ROM drive of your PC.
- 2 Follow the on-screen instructions to complete the installation of **Windows Media Player**, **Philips Device Manager** and **MediaConverter™ for Philips**. The MediaConverter™ for Philips converts video clips into suitable formats for the player.

2 Connect and charge

A Connect to PC

When you connect the player to the PC, it automatically charges.

- 1 Before you use the player for the first time, charge it for at least 5 hours.
 - > The battery has a 100% charge after 4 hours and an 80% charge after 2 hours.
- 2 Connect the supplied USB cable to the mini USB port at the bottom of the player, the other end to your PC.
 - > The player will start to charge as soon as it is connected to your PC.

B Read the battery level indication of your player

The approximate power levels of your battery are indicated as follows:

Full

Two-thirds full

Half full

Low

Empty

Note When the batteries are almost empty, the battery screen  blinks. The player saves all settings and unfinished recordings and switches off in less than 60 seconds.

3 Transfer

You can transfer music and picture files to your player using **Windows Media Player**. See **Organize and transfer music and pictures with Windows Media Player 11** section of the user manual for more details.

A Transfer music and pictures with Windows Media Player 11

Download Windows Media Player 11:

<http://www.microsoft.com/windows/windowsmedia/player/11/default.aspx>

- 1 Start **Windows Media Player 11**.
- 2 Connect the player to your computer using the supplied USB cable.
- 3 Once the player is connected, the sync tab changes as shown () and the device and its contents become visible in **Windows Media Player 11**(see figure above).
- 4 **Windows Media Player 11** will automatically start synchronizing the contents of your music library to your player.

For details on how to set synchronization options in **Windows Media Player 11**, pls refer to the user manual.

B

Download, convert and transfer videos with the Stream Ripper of the MediaConverter™

Important

DRM protected videos that you have downloaded (purchased) from the Internet must have a bit rate of ≤ 800 kbps so you can transfer them to the player. You can obtain the licence for DRM protected videos when you play the videos on your PC that is connected to the Internet. You can move DRM protected videos with downloaded licence to the VIDEO folder of your player by 'drag & drop' in Window Explorer.

Important

To use the Stream Ripper feature and avoid download error messages, install the 'FLV codec' on your PC. (Tip: If you enter 'download FLV codec' in your Internet search engine, you can find websites that offer a download of the FLV codec.)

- 1 Use the **Internet Explorer** to open the website from where you want to download the video.

The Stream Ripper software supports downloads from the following websites:

- video.google.com
- myspace.com
- youtube.com

- 2 While playing the video on the website, move your mouse cursor over the video until you see the Stream Ripper icon  Download in the top left hand side corner, then click **Download**.

> *When the video is downloaded the MediaConverter™ opens and shows the downloaded video.*

- 3 In the **MediaConverter™** window, click **Start** to start the conversion and transfer of the video.

- > The progress of conversion and transfer is shown.
All the converted files will be transferred to the player.

Tip You can also select the files in **Windows Explorer** and then drag and drop them into the **MediaConverter™ for Philips** screen.

Note If needed, the files will first be converted to a format that can be played on the player.

4 Enjoy

A Turn on and play

Troubleshooting

How do I reset my player?

Insert a small pin or other sharp object into the reset hole located at the bottom of the player. Hold until the player shuts down.

If none of the above works, then you may have to use the **Device Manager to recover your player:**

- 1 Launch the **Philips Device Manager** at **Start > Programs > Philips Digital Audio Player > SA52XX > Philips SA52XX Device Manager** on your PC.
- 2 Press and hold the **VOL+** button while your player is connecting to the PC.
- 3 Keep holding the key until the **Philips Device Manager** acknowledges your player and goes into recovery mode.
- 4 Click the **Repair** button and follow the instructions given by the **Device Manager**.
- 5 After the player has been repaired, disconnect it from your PC and re-start.

Disposal of your old product and the integrated battery

All our products are designed and manufactured with high quality materials and components, which can be recycled and reused.

The crossed-out wheel bin symbol on a product means that the product is subject to the European Directive 2002/96/EC. This symbol can also be used in combination with a chemical symbol, which means that the product complies with the environmental directive for that chemical.

Never dispose of your product with other household waste. Inform yourself or ask your dealer about local environmentally safe recycling regulations. The correct disposal of your old product helps prevent potentially negative

consequences for the environment and human health.

Your product contains a built-in rechargeable battery covered by the European Directive 2006/66/EC, which cannot be disposed with normal household waste.

To safeguard the functionality and safety of your product, always bring your product to an official collection point or service centre where a professional can remove / replace the battery as shown in the user manual.

Please inform yourself about the local rules on separate collection of batteries because the correct disposal will help prevent negative consequences for the environmental and human health.
