Xenium

9@9v

CT9A9VBLK

Incredible battery life

The incredibly smart and efficient Philips Xenium 9@9v converts your handwriting into SMSes instantly. Switching phone numbers is easy thanks to dual SIM capability and its signature ultra-long battery life ensures you stay in touch always!

Always on, always connected

- Up to 1 month of standby time
- Up to 8 hours of talk time

Quick and easy messaging

- On-screen handwriting recognition
- Touch screen

Maximize your mobility

- Dual SIM cards for hassle-free switching of phone numbers

PHILIPS

Highlights

Up to 1 month standby time

The phone can be on and in standby mode continuously for up to 1 month on a single charge.

Up to 8 hours talk time

The phone can support up to 8 hours conversation on a single charge.

Handwriting recognition

The intuitive and fast way to write text messages. Simply write on the touch screen as you would write on a piece of paper to have the phone convert your handwriting into an SMS (Short Message Service) text message. The feature has built-in handwriting recognition capability in both Chinese (traditional and simplified) and English (Roman alphabet).

2 SIM cards, 1 phone

Enjoy hassle-free switching of your phone numbers without having to remove and swap your SIM cards. Your Philips mobile phone is specially designed to accommodate two SIM cards. To switch between the two cards, simply select the desired SIM card on the phone menu.
