- Picture Compression Format: JPEG
- Picture Enhancement: Rotate, Zoom, Slideshow with music playback

Tuner/Reception/Transmission

- TV system: PAL B/G, PAL I, PAL D/K

Connectivity

- Front / Side connections: i.LINK DV in (IEEE1394, 4-pin), USB 1.1
- Rear Connections: Digital coaxial out, RF antenna in / TV out, Composite video (CVBS) input, Composite video (CVBS) output, S-Video out, Component Video output, Analog audio Left/Right in, Analog audio Left/Right out, S-Video in, HDMI output

Convenience

- Programming/Timer Enhancements: Daily/Weekly Repeat Program, Manual Timer, One Touch Recording
- Programmable Events: 7

Power

- Power supply: 110-240V, 50/60 Hz
- Standby power consumption: < 2 W
- Power consumption: 27 W (Typical) W

Accessories

- Included accessories: Remote Control, User Manual, 2 x AAA Batteries, Quick start guide, Warranty Leaflet, RF antenna cable, A/V Cable

Dimensions

- Product dimensions (WxDxH): 360 x 307 x 53
- Product weight: 2.25 kg
- Packaging dimensions (VxHxD): 505 x 124 x 388

Highlights

Dual Media

Philips DVD Recorders support 'dual media' recording - the ability to create recordings on DVD+R/RW, DVD-R/RW and DVD+R DL discs. Now you can buy any disc and the Philips recorder will always create fully compatible recordings, which can be played by any DVD player.

Plays it all

Play virtually any media format you want - whether they be DivX, MP3s, WMA or JPEGs. Experience the unbeatable convenience of great playability, and the luxury of sharing media files on your TV or home theater system - in the comfort of your living room.

DivX Ultra Certified

With DivX support, you are able to enjoy DivX encoded videos in the comfort of your living room. The DivX media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, and DVD recordable discs. DivX Ultra combines DivX playback with great features like integrated subtitles, multiple audio languages, multiple tracks and menus into one convenient file format.

i.LINK digital input

Also known as IEEE 1394 and FireWire, i.Link carries all audio and video signals via a single cable digitally, with no loss in picture and sound quality. With i.Link digital video input, you can copy your home videos in their original digital picture quality.

HDMI 1080p

HDMI 1080p upscaling delivers images that are crystal clear. Movies in standard definition can now be enjoyed in true high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan (represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multichannel audio, without conversions to analog - delivering perfect picture and sound quality, completely free from noise.
