BT9285/41

Ultimate precision

The only beard trimmer with a laser guide

Experience ultimate control with an exclusive laser guide, allowing you to create the exact look you want with total confidence.

Benefits

Easy to use

- Water-resistant for easy cleaning
- Detail comb for precision, and beard comb for control
- The LED display clearly shows your chosen length setting
- LED display shows the battery level
- 2 year warranty, worldwide voltage and no need to oil
- 60 minutes cordless use after a 1-hour charge, or plug it in

Precision

- Use the unique laser guide for precise, symmetric results
- The zoom wheel 'locks in' your chosen length setting
- Dual-sided reversible trimmer for ultimate versatility
- Set length to 1/64" (0.4mm) for perfect stubble every day

Skin-friendly performance

- Skin

Features

World's first laser guide

The unique laser guidance system projects a sharp line of light to pre-align your style before you trim. It will point out where the hairs will be cut so you get it right every time.

17 lock-in length settings

To select your preferred trim length, just turn the zoom wheel on the handle until the length you want is displayed. Your chosen length is now 'locked in' for a precise and even trim.

Reversible trimmer

The dual-sided reversible trimmer gives you the versatility to create your unique look. On one side, the 1 17/64" (32mm) high-performance trimmer cuts very close while protecting your skin. On the other side, the 5/8" (15mm) precision trimmer creates a detailed look, even in those hard-to-reach areas like under the nose and around the mouth. The trimmer's small size and angled design make it easy to see what you are doing for accurate fine lines and details.

Skin-friendly high performance
