

MPN: FIBLCSM

LC Singlemode Duplex Adapter

The LC Singlemode Duplex Adapter (FIBLCSM) provides a reliable and high-precision connection for single-mode fiber optic cables. Designed for LC-LC connections, this adapter ensures optimal signal transmission in demanding networking environments. Its duplex configuration allows for simultaneous data transmission and reception, maximizing efficiency. Built with premium materials to European standards, the FIBLCSM adapter guarantees long-lasting performance and minimal insertion loss, making it an essential component for robust and dependable fiber optic networks. Trust MicroConnect's 20+ years of expertise to deliver pioneering connectivity solutions you can rely on.

Specifications

Features	Connector type	LC
	Duplex	Yes
	Fiber mode structure	Single-mode
	Number of connectors	2
	Product colour	Blue
Packaging content	Quantity per pack	1 pc(s)
Vendor information	Brand Name	MicroConnect
	Homepage	https://microconnect.me/
	Warranty	25 Year(s)
