

Philips MoistureProtect
Straightener

- MoistureProtect technology
- Ionic
- Floating ceramic plates

HP8372/00

Preserve your hair's natural hydration

For a healthy shine

Sensor technology protects the moisture balance of your hair. The sensor diagnoses your hair 30 times per second and adapts the temperature to preserve natural hydration. Up to 63% moisture preservation (measured after 1 stroke in 2013).

Benefits

MoistureProtect technology

- Perfect moisture protection with innovative sensor

Beautifully styled hair

- Prevents static for smooth, frizz free shiny hair

Ease of use

- Faster, more caring high-performance heater

- Instant heat-up time of 15secs

- 3 digital temperature settings

Caring technology

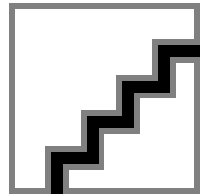

- Apply less pressure to hair to reduce the risk of breakage

- Perfect heat control with innovative sensor

PHILIPS

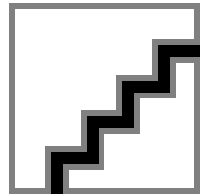

Features

MoistureProtect technology

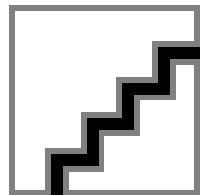

The sensor diagnoses your hair 30 times per second and adapts the temperature to preserve natural hydration of your hair.

Ionic conditioning

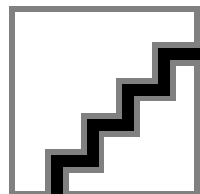

Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is smooth, shiny and frizz-free.

Floating ceramic plates

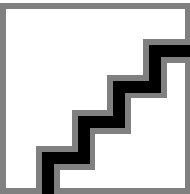

The floating plates move to adjust the pressure on the hair. This protects the hair shaft from being damaged and reduces the possibility of hair breakage.

MoistureProtect sensor

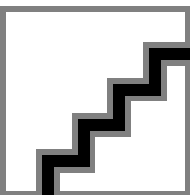

MoistureProtect sensor regulates the heat of the straightening plates for your hair needs, protecting the hair from overheating.

High-performance heater

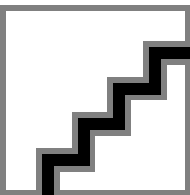

This straightener keeps a more constant temperature for consistent results. Its high performance heater provides a more caring temperature while getting the exact style you want! Styling will be faster, since you need less strokes, while straightening.

15 sec. heat-up time

The high-performance heater ensures a fast heat-up time of just 15 seconds.

Temperature control

3 temperature settings (200 - 175 - 150 Celsius) that work together with the sensor to ensure that you always straighten at the best temperature for your hair type.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Technical specifications

Cord length	2.0 m
Heat-up time	15 sec
Maximum temperature	200 °C
Heater Type	High-performance heater
Voltage	110-240V

Caring technologies

MoistureProtect technology	Yes
Floating ceramic plates	Yes
Ionic	Yes

Features

Ceramic coating	YES
Auto shut-off	after 60 min
Swivel cord	Yes
Hidden display	YES

Service

2-year worldwide guarantee	Yes
