M8881W/10

Redefining the home phone

Impeccable craftsmanship meets iconic style with the Philips M8 cordless phone. Advanced manufacturing transforms premium materials into a work of art, heralding a new class of designer home phone that is a pleasure to behold.

Benefits

Exquisite design with high quality execution

- Calibrated, seamlessly integrated keys for precise dialling
- Sensually curved handset for pure balance and comfort
- Charge handset either way around
- Sophisticated design with genuine metal highlights
- Smart, nicely designed cable management

Ultimate calling experience

- Advanced sound testing and tuning for superb voice quality
- Talk for up to 18 hours on a single charge

- Handset speakerphone allows you to talk hands-free
- Privacy settings: call barring, silence mode with filtering
- Up to a 60 min. message on your answering machine
- High resolution 5.1 cm (2") TFT colour display

Eco-conscious product

- Low radiation (ECO and ECO+ modes) and power consumption

PHILIPS

Features

Eco-conscious model with ECO+

Philips phones are energy efficient and designed to be respectful to the environment. When ECO mode is activated, the emitted radiation is reduced by up to 60%, and up to 95% when the phone is charging. With ECO+ mode activation, the radiation drops to zero.

Calibrated keypad

The calibrated keypad allows you to clearly feel every keystroke whenever you are dialling a number or entering a phonebook contact. Detailed study of keypad materials and structures, as well as extensive user tests results in the right balance between the key pressing force and the key response to ensure precise dialling.

Comfortable handset

Sensually curved handset for pure balance and comfort

Handset speakerphone

Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

Hassle-free charging

For reliability and convenience the handset can be charged in both directions of the docking station.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Sound

HQ-Sound	Yes
Sound Profile:	Yes
MySound	
Ringtones on handset	10 HQ ringtones

Natural materials

The design of the Philips M8 features genuine die-cast metal that has been immaculately crafted and brushed for a truly refined look and feel.

Privacy modes

Value your privacy and quiet at home? Easily disable the ringtones for specific "no call" times to enjoy peace and silence. An additional filtering function allows the ring still to sound when you receive a call from any number chosen from the phone book, making sure that only the "right" people can reach you. Thanks to call barring you can avoid expensive phone bill surprises by blocking calls to specific numbers, numbers starting with certain digits (for example pay-per-call numbers) or specific area codes.

Smart cable management

The smart cable management system cleverly hides the wires from sight. Intelligently designed concealed sockets and an internal cable guide ensure everything is clutter-free and neatly tucked away.

Up to 60 min. message

With up to 60 minutes recording time on your answering machine, you'll never miss an important message.
