A5PRO/00

Professional DJ Headphones

in collaboration with Armin van Buuren

5-time World's Best DJ winner, Armin van Buuren collaborated with Philips to bring you the A5-PRO headphones. Backed by his experience, the A5 is engineered to meet the highest standards and demands of international DJs and industry pros.

Benefits

For DJs and audio professionals

- 50 mm drivers engineered for 3500mW power handling
- Closed-back architecture with isolating supra-aural cushions
- Source-accurate sound reproduction
- Superior sound isolation for use in loud environments

Comfortable for long sessions

- 90 degree swivel ear-shells for DJ monitoring
- Detachable, replaceable and comfortable ear cushions
- Soft, comfortable headband cushioning

Functional and durable

- Aluminium-hinged alloy steel headband for enhanced durability
- 1.3 m cable with coiled section extending to 4.7 m
- Folds into a compact form for easy storing and carrying

Ideal DJ accessories

- 3 sizes of replaceable cushions to suit different uses

PHILIPS

Features

50 mm drivers handling 3500mW

High powered 50 mm neodymium drivers are engineered for 3500mW power handling – no matter what the source is. Sound delivery is clear, dynamic and distortion-free even at high volumes or with high audio input power.

90 degree swivel ear-shells

Designed with the professional DJ in mind, the earpieces on these headphones can each rotate 90° – for convenient one-ear listening while track mixing. The swivel can also be put to good use even in more casual listening, when temporary attention has to be paid to external sounds.

Aluminium hinge construction

The Philips A5-PRO combines robust construction with exceptional fit. With its hard anodised-finish and sturdy yet lightweight aluminium structure, it is the perfect companion to withstand any active DJ environment.

Closed-back architecture

Closed-back system blocks out ambient noise.

Coiled cable expands to 4.7 m

Enjoy greater freedom of movement with a 1.3 m long cable with a coiled section that can extend to 4.7 m. The coil also reduces the strain on parts caused by pulling, while providing extra extension without the tangled mess of cables.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Sound

Acoustic system	closed	Impedance	16 Ohm
Frequency response	10 – 24,000 Hz	Magnet type	Neodymium

Comfortable ear cushions

The earphone materials are carefully selected to ensure both long-wearing comfort and enhanced sound performance. Deluxe breathable ear pads are designed for optimal ergonomic fit as well as to seal in bass sounds while keeping out ambient noise.

Folds into compact form

Designed to give you the best experience on the go, your DJ headphones can be folded away for perfect portability and easy storage. Smart design and careful selection of components, like well-built hinges, allow the headphone parts to be manoeuvred with ease.

Soft, comfortable headband

The soft-cushioned headband provides long-wearing comfort.

Source-accurate sound

The sound reproduction stays true to the original and lets you get the most out of your music.

Superior sound isolation

Soft sealing cushions isolate your ears from the outside world, so you can focus on the beat without distraction.

Replaceable cushions

Bayonet mount cushions easily twist and click into place with the same secure mechanism of a camera lens. The soft ear cushions provide long-wearing comfort and come in three sizes to suit any preference and for use in different audio environments.

Maximum power input	3500mW
Sensitivity	105 dB
